CCTS Conference Room
(C315)

12:00 - 12:45
Meta Analysis
Richard Kryscio, PhD
Meta Analysis is an important statistical tool for consolidating information across homogeneous clinical studies in a systematic fashion. We will illustrate some of its many applications, basic components, and discuss when it can and cannot be used.

12:45 - 1:00
Open consultation time with BERD members
The BERD will be available for short consultations or questions on study design, data analysis, statistical software questions, proposal development and/or writing, or any other statistical questions. Full consultations may be scheduled in follow-up to questions asked during this time.

What’s a BERD?

**Biostatistics, Epidemiology, and Research Design**

We provide
- Consultations on study design for clinical trials, community-based participatory research, and population-based (epidemiologic) studies
- Quantitative data analysis
