A Gentle Introduction to Linear Mixed Modeling and PROC MIXED

Monday, February 11, 2013
12:00 - 2:00

Multi-Disciplinary Science Building
Room 335

This two-hour workshop will introduce attendees to both basic concepts of linear mixed modeling, including comparisons to linear regression and repeated measures ANOVA, and its SAS software implementation in PROC MIXED. Familiarity with basic concepts of linear regression is assumed, but no prior knowledge of SAS is expected.

Please RSVP to Ms. Johanna Wray (jst227@uky.edu) by February 8 as seating is limited.

Sponsored by Biostatistics, Epidemiology, and Research Design (BERD)
