

Opioid Users Needed for Research Study

We are looking for opioid users who:

- use opioids everyday or nearly everyday
- have used opioids intravenously (injected)
- get sick when not taking opioids
- are ages 18-55
- are able to live at the UK hospital for 5 weeks

The purpose of this study is to learn more about how opioids produce their rewarding effects

Qualified participants will be paid for participation

Travel expenses may be reimbursed

If you are interested, call us to complete a
CONFIDENTIAL phone interview.
