

## Will the medications **Cialis<sup>®</sup>** or **Myrbetriq<sup>®</sup>** improve my metabolism?

Researchers at the University of Kentucky want to determine whether the “erectile dysfunction drug” **Cialis<sup>®</sup>** (tadalafil) or the “overactive-bladder drug” **Myrbetriq<sup>®</sup>** (mirabegron) will improve blood sugar and metabolism.

### You may be eligible for this research study if you are:

- overweight (BMI more than 27)
- age 35-65 years old
- are not on medications for diabetes
- have not had a previous heart attack or severe heart condition

Participants will receive compensation for their time.
