

People Who Use Opioids Invited to Join a Research Study

Do you use opioid drugs like heroin, Lortab®, Percocet®, or Oxycontin® for non-medical reasons?

Do you use opioids daily or near-daily?

Do you get sick when you stop using opioids?

Are you between the ages of 18 and 50?

If you answered yes, and you are interested in participating in a research study, contact the Center on Drug and Alcohol Research for a confidential interview to see if you qualify.

Call toll-free:

1-866-933-4UKY

This study is testing how a medication interacts with opioid drugs. Participation will require a 5 1/2-week stay in the hospital. You will be paid for your participation. Travel expenses may be reimbursed.
