

Have you been diagnosed with rheumatoid arthritis?

Researchers at the University of Kentucky are inviting you to take part in a research study about medications that are used to treat rheumatoid arthritis, including methotrexate. This research study will develop a scale measuring intolerance to methotrexate.

You may be eligible to participate if you:

- Have been diagnosed by a health care provider with rheumatoid arthritis;
- Are 18 years of age or older;
- Have access to a telephone and internet; and
- Have either been prescribed methotrexate and have not started the medication, are taking methotrexate, or have previously taken methotrexate.
