

Are you in good health and between the ages of 18-45?

Researchers at the University of Kentucky College are searching for healthy participants for a study about the effects of myostatin, a molecule secreted by muscle, on diabetic bone.

- **You may be eligible to participate if you are an adult without diabetes and in good health.**
- **You may NOT be eligible if you are pregnant.**

If you are interested in participating,
please fill out this online questionnaire:

<https://redcap.uky.edu/redcap/surveys/?s=P8P7CFM47J>

You will be compensated for
your participation.

An Equal Opportunity University
