

Are you in good health and have Type 1 diabetes?

Researchers at the University of Kentucky are inviting you to participate in a study about the effects of myostatin, a molecule secreted by muscle, on diabetic bone. You are being invited to take part in this research study because you are 18 to 45 years old, have Type 1 diabetes and in overall good health.

You may **NOT** be eligible if you:

- Have diabetes complications
- If you are pregnant

You will be compensated for your participation.
