

Colorectal cancer screening in African American women

Researchers at the University of Kentucky are inviting you to participate in a survey-based study to assess beliefs and behaviors about colorectal cancer screening.

You may be eligible to participate if you:

- Identify as African American or Black
- Are between the ages of 45-64
- Have no history of colon or rectal cancer

Survey link: <http://bit.ly/CRCSAAwomen>

PARTICIPATION IS COMPLETELY CONFIDENTIAL!
