

Healthy Adult Volunteers Needed for Vaccine Research

Researchers at the University of Kentucky College of Medicine are conducting a clinical research trial to study the body's response to a new vaccine to prevent smallpox.

You will be compensated for your time upon completion of study.

You may be eligible if you:

- Are a healthy adult.
- Are 18 to 45 years of age.
- Have never been vaccinated against smallpox
- Are not pregnant.
- Are interested in contributing to the knowledge that may help prevent smallpox.
