

Exploring physician-patient interactions among male and female POTS patients

Researchers at the University of Kentucky College of Health Sciences are inviting you to participate in a study that explores Postural Orthostatic Tachycardia Syndrome (POTS) patients' interactions with their doctors. Participants will participate in a 60-90 minute interview with a researcher and will be asked about interactions with their doctors. Interviews can take place in person, via phone, or electronically via Zoom. You will be compensated for your time.

You may be eligible if you:

- Are at least 18 years old.
- Have been diagnosed by a physician with Postural Orthostatic Tachycardia Syndrome (POTS).

An Equal Opportunity University
