

Muscle weakness study enrolling now

Researchers at the University of Kentucky are conducting a study to learn more about obesity-induced muscle weakness and how it relates during daily tasks. Participants will be required to make 3 visits to the testing site on campus. Participants will be compensated \$20 upon completion of study.

You may be eligible to participate if you:

- Are a 20 - 40 year old female
- Are of normal weight or currently obese
- Write, speak, and understand English
- Are not currently participating in regular exercise
- Are not taking medications which contribute to muscle weakness
- Do NOT have symptoms or diagnosis of cardiovascular, metabolic, pulmonary disease, or osteoarthritis
- Have not had previous low back or lower extremity surgery or joint injury within the last 6 months

An Equal Opportunity University
