

Concussion study enrolling now

Researchers at the University of Kentucky are inviting you to participate in a research study investigating both balance and gait after a concussion. This study would require you to complete an MRI of your brain and complete clinical assessment tasks. Both the clinical assessments tasks and MRI testing will last about 3 hours over 2 days. You will receive \$40 upon completion of the study.

You may be eligible to participate if you:

- Are NOT seeking medical treatment or physical therapy for an upper or lower extremity injury
- Are NOT pregnant
- Are NOT taking medications that effect the central nervous system
- Do NOT have cognitive impairments
- Have sustained a concussion within the last 3 weeks

An Equal Opportunity University
