

Are You A Female Who Thinks They Have ADHD?

Researchers at the University of Kentucky College of Art and Sciences are inviting you to participate in a study for young women who think they have ADHD. This study will collect data on estrogen levels as they relate to ADHD symptoms. Participants will be compensated upon completion of study.

You may be eligible if you are:

- A female between 18 - 25 years old
- Concerned that you might have attention, overactivity, or impulsivity problems
- NOT taking any hormone-based medications

Scan the QR code or visit
