

Are You A Nurse Experiencing Violence During COVID-19?

An estimated 40% of nursing professionals experience partner abuse. Researchers at the University of Kentucky are conducting a study to help understand the stressful experiences of working while being employed as a nurse and partner abuse.

Participants enrolled in the study will be interviewed about their experiences. Participants will be compensated for their time.

You may be eligible to participate if you:

- Are 18 years or older
- Are currently employed as a nurse in Kentucky.

To learn more about participating, scan the QR code to see the study.
