

## **Has your Child Been Admitted to the Newborn Nursery or Neonatal Intensive Care Unit (NICU)?**

Researchers at the University of Kentucky invite parents and/or guardians to participate in a research study about Adverse Childhood Experiences (ACES), depression, anxiety, and post-traumatic stress disorder and having a child admitted to a Newborn Nursery (NBN) or Neonatal Intensive Care Unit (NICU). Participants will be asked to take an online survey regarding their experiences.

**You may be eligible to participate if you are:**

- over 18 years old
- the parent and/or guardian of a newborn who has been admitted to UKY NBN or NICU within the last 6 months

**Scan QR code below to complete  
an online survey for the study:**
