

**Had a heart  
Attack,  
Stroke, or  
Have PAD?**

# EXPERIENCED A MAJOR CARDIAC EVENT?

Researchers at the University of Kentucky invite you to participate in a research study about cardiovascular disease, if you have been diagnosed with a condition that involves your blood vessels becoming blocked, which can then cause a heart attack, stroke, or reduced circulation of blood to a body part other than the brain or heart (also known as peripheral artery disease).

Participants will receive a stipend.
