

RESEARCH VOLUNTEERS NEEDED FOR OSTEOPOROSIS TREATMENT TRIAL

Researchers at the University of Kentucky Division of Nephrology, Bone and Mineral Metabolism invite you to participate in a research study on Osteoporosis. The study is evaluating a novel precision medicine approach to treat patients with osteoporosis using established FDA approved medications.

You may be eligible to participate if you are:

- a female over 45 years old (all races included)
- diagnosed with Osteoporosis

and have no prior treatment with Osteoporosis medications
