

Have you Recently Resettled?

Researchers at the University of Kentucky are conducting a study to better understand how stress, limited resources, and relocating or moving to a new location, may affect memory and brain health. Complete a brief, non-invasive brain and thinking test.

You may be eligible to participate if you are 40 years or older and:

- live in Kentucky
- understand English
- had to resettle in a new location due to conflict, displacement or natural disasters

Participants will receive compensation for their time.
