

DO YOU HAVE TYPE 1 DIABETES?

If yes:

- We are looking for people with type 1 diabetes between the ages of 18 and 75 years to participate in a research study.
- You may be eligible for this study if you sometimes struggle to feel symptoms of low blood sugar.
- The purpose of this study is to test different strategies to restore symptoms of low blood sugar.

Why you may want to join us:

- Chance of reducing problems with low blood sugar.
- Access to interventions designed for people with type 1 diabetes to help improve care.
- Compensation for participation, time, and other study-related expenses.
