

FAMiCARE Usability Study

Researchers at the University of Kentucky are inviting you to participate in a usability research study on a new mobile health app that may play an important role in supporting families to stay connected with the ICU critical care staff during long term hospital stays of patients. All research procedures will take place in the College of Health Sciences or College of Nursing.

You may be eligible to participate if you:

- Are a member of the healthcare community including:
Healthcare staff, Medical, Healthcare Students, or Nurse

Participants will be compensated for their time.

Scan the QR code to visit the site.
