

Are you gay or lesbian and living in a rural community?

Researchers at the University of Kentucky College of Public Health are inviting you to participate in a study to help rural gay and lesbian populations. The goal of this study is to examine how rural social environments affect aging lesbian and gay individuals' health. This information will support the development of recommendations and programs focused on improving the health of the aging lesbian and gay population.

You may be eligible if you:

- Self-Identify as Gay or Lesbian
- Live in the following rural KY counties*
- Are at least 50 years old or older

* Adair, Breathitt, Clay, Floyd, Johnson, Perry, Wayne, Monroe, Casey, Clinton, Cumberland, Jackson, Knott, Lee, Leslie, Magoffin, Metcalfe, Morgan, Owsley, Russell, Wolfe
