

CLOSTRIDIUM DIFFICILE

CLINICAL RESEARCH STUDY

Our Research Center, with Crestovo (a pharmaceutical company), is seeking volunteers to participate in a clinical research study to prevent recurrent *Clostridium difficile* (*C. difficile*).

To find out more about this study and about how to get involved, please contact:
Beth Plummer at 859-323-5893

Version 1.0 13 March 2017

To be eligible for this study, you must be:

- **18 to 85 years of age**
- **Have had 2 previous episodes of *C. difficile***
- **Must be experiencing a recurrence of *C. difficile* at this time**
- **Do not have a history or diagnosis of Irritable Bowel Disease (IBD) or Irritable Bowel Syndrome (IBS)**

All Study visits will be performed and Investigational medication and procedures will be provided at no charge to you.

This trial is conducted under a US Food and Drug Administration Investigational New Drug Application.
