

## Are You in Good Health and Living with Type 1 Diabetes?

Researchers at the University of Kentucky are inviting you to participate in a study about the effects of myostatin, a molecule secreted by muscle, on diabetic bone.

You may be able to participate if you are 18 to 45 years old, have Type 1 diabetes, and are in overall good health.

**You may NOT be eligible if you have diabetes complications or are pregnant.**

You will be compensated for your participation.

If you are interested in participating,  
please fill out this online questionnaire:
